

DR SUMAN SUMSHER THAPA
THE TILGANGA INSTITUTE OF OPHTHALMOLOGY
KATHMANDU
NEPAL

20th November 2009

Dear Dr Suman,

I would first of all like to thank all the staff at the Tilganga Institute of Ophthalmology, especially you, Dr. Suman Sumsher Thapa, and Dr Reeta Gurung for accepting me for this Phaco-emulsification training course.

Dr. Suman has been a wonderful mentor; very perceptive and understanding, making sure that every stage of my training was planned and structured so that I'd get the maximum benefit from each day I spent in the O.T.

I'd also like to make a special mention of the O.T. staff at the Tilganga Institute of Ophthalmology, who have helped in choosing the cases from those cases posted for surgery, specifically, so as to closely correspond with my level of expertise, as I progressed through my training.

I will strongly recommend that anyone planning to learn Phaco-emulsification should make it a point to try and learn here at this institute. Even those who are starters and wish to improve their skills in Phaco-emulsification techniques will benefit from any time spent here, with these experienced surgeons.

Dr. Kurumthottical Mathew Mathew, M. D. Ophthalmology
